

# RPM Pro Pac™

*Repair & Preventative Maintenance Kits*

*Designed for easy repair and simple preventative maintenance, the RPM Pro Pac™ Repair & Preventative Maintenance Kit contains everything needed to maintain optimum performance in LMI's LiquiPro™ Series of metering pumps. Containing only quality, recommended replacement parts, these kits provide an easy, economical solution to annual pump maintenance.*

### Convenient Package Design

Clear, shrink wrap packaging offers quick content viewing and convenient kit storage. Package perforations provide hassle-free part removal.

### Easy Installation

Each kit contains everything needed for spare part replacement including a detailed illustration and step-by-step installation instructions.

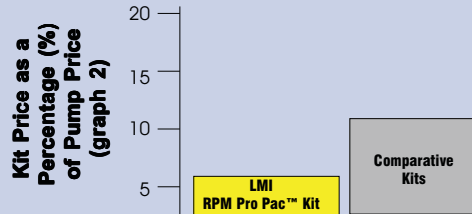

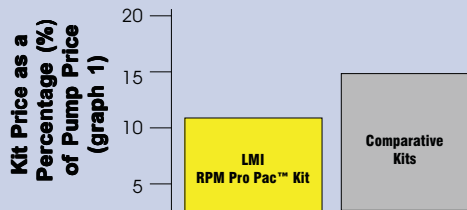

### Simplified Ordering

Selecting the correct RPM Pro Pac™ kit is fast and easy with kit part numbers matching pump model numbers. Twelve kits cover the entire family of LiquiPro™ 300 Series liquid ends.

### Significant Savings

The cost of an RPM Pro Pac™ kit is the lowest in the industry with respect to the cost of the pump. Each kit contains only those parts recommended for annual maintenance, minimizing the time and cost required for maintaining optimum pump performance. As a result, the overall cost of owning and maintaining an LMI pump is unmatched.

LMI percentage is based on 1999 pricing of an A751-391TI pump and RPM-390/391 kit (graph 1) and C721-361TI pump and RPM-361 kit (graph 2). Comparative kit percentage is based on 1999 pricing of pump models with similar features and outputs.
